

IOSH MANAGING SAFELY

Employers are legally required to ensure all staff are provided with adequate health and safety training. Managers and supervisors in particular should be aware of their responsibilities and be competent to manage health and safety effectively. If you hold a management or supervisory role, you need to have a good awareness of the basic health and safety issues that are now legal requirements.

IOSH Managing Safely is a dynamic and practical 3½ day Health and Safety training course designed to educate line managers and supervisors on their Health and Safety responsibilities and build the confidence to put it all into practice.

Aim:

This course aims to cover all major Health and safety related issues and provide delegates with the right level of knowledge and practical experience needed to manage key issues within their teams.

Who should attend?

Managers, Supervisors and Individuals responsible for teams or groups of employees who require a basic knowledge of Health and Safety

Learning Objectives: On completion of the course delegates should be able to:

- | | |
|---|--|
